Summary

Entry level web developer with 1+ years of experience in HTML5, and React. Proven ability to create reusable components for an enterprise-level web application. Passionate about technology and building web solution..

Experience

Intern Web Developer - Tatwa Technologies

Jan 2023 - Jun 2023

- Design and implement a service page for the Watco project ensuring seamless user interaction following MVC architecture principles, and create an intuitive UI for the About page to showcase company information across various devices, enhancing user experience and engagement.
 - During my internship, I honed teamwork skills through active collaboration and showcased leadership by taking initiative in project tasks.
-

Education

Bachelor of Technology - BTech • BPUT University Odisha

Aug 2019 - May 2023

Computer Science and Engineering • Grade: 8.6

Coordinated various Programming Events, demonstrating strong skills in Frontend Development.

Projects

Blog Application

Dec 2023 - Jan 2024

- 1.Designed and implemented a feature-rich blog platform with ReactJS for frontend engagement, fostering dynamic user interaction and intuitive navigation. This enables users to create, edit and delete their own blogs, while implementing restrictions to prevent unauthorized editing or deletion of others' content.
 - 2.Build reusable components that improved the code efficiency and expandend user signup and login functionality support users with different roles.
 - 3.Utilized Node.js and Express.js on the backend to streamline user authentication, CRUD operations and data management in MongoDB, ensuring robust security and scalability.
-
